

Need a statistician for a few hours a week?

Written by Michelle Hards - Last Updated Monday, 01 November 2010 17:16

A UK-based medical statistician is available for around 6 hours a week. Available for individual consultations or regular work. Qualified with an MSc in Biometry, MMath and a BSc (Hons) in Mathematical Sciences, with experience in Phase I Bayesian designs, survival analysis and logistic regression. Fee dependent on scope and nature of work. If you are interested in this opportunity, email admin@medicalstatistician.com for more information.
