

How to present results from meta-analyses

Written by Michelle Hards - Last Updated Friday, 30 April 2010 15:27

Have you performed a meta-analysis and are wondering how to present the results? A helpful article has just been published in Research Synthesis Methods, entitled 'graphical displays for meta-analysis: an overview with suggestions for practice'.

Anzures-Cabrera and Higgins review standard and proposed graphical displays for results from meta-analyses.
